

1. Write react js script to display alert box with text “Welcome to LJU” by clicking on button. (on double click)
2. Write react js script to display alert box with text “You clicked submit.” only on submitting form.
3. (Example of onchange event)Write react js script to display values in console while changing it in text box.
4. Create a React application using **functional components** and **React Router DOM**.

Requirements

1. Create routes for:
 - Home
 - Shop
 - Contact
 - 404 NoPage
 2. Implement navigation using Link.
 3. Display:
 - **Home page** on Home route
 - **Shop page** on Shop route
 - **Contact Detail** on Contact route
 - **404 Page not Found** for invalid URL
5. Create a React app to perform the following tasks using functional components:

Implement the following components in your React application:

- Main.jsx to set up the router and define the routes.
- Home.jsx for the Home page.
- Product.jsx for the Product page.

1. Create a React Router:

- Include two routes: Home and Product. Implement navigation between these routes.

2. Create the following routes and components:

- When a user clicks on the Home page link, it should navigate to the Home page and display "Welcome to LJU" within an <h1> heading with blue color. Also, include link to product page.
- A **Product** page that displays three products' information (name, price, and image) using props. When a user clicks on the Product page link, it should navigate to the Product page and display three products' information name, price and product image using props.

6. Create a component to perform the tasks as described below:

1. Add a text field and a submit button.
 - While changing the value in the text field, display it below the form.
 - Display this text field value in an alert box upon submitting it.
2. Add a button to perform click and double-click event tasks.
 - On click event, display message in h3 tag "You clicked once".
 - On double-click event, display message in h3 tag "You clicked twice".
 - Message should be displayed below the button.
